Exploration
Adjacent to
the Root Bay
Lithium
Deposit

- 10 km of highly prospective trend along strike of growing Root Bay Deposit: **10.1 Mt at 1.29% Li₂O**
- New drill results **just 25 m from property boundary** including **23.3 m of 1.16% Li₂O** and **11.7 m of 1.12% Li₂O**
- Targets identified for **aggressive drill program planned for Spring 2024**
- Root Bay area has emerged as a leading lithium exploration following the discovery of the Root Bay lithium deposit in 2023
- **Top-tier mining jurisdiction** and leader in the critical minerals sector
