

# ATLAS LITHIUM

 Nasdaq: AT LX

## Corporate Overview

July 2024

# Forward-Looking Disclaimer

This presentation contains, or incorporates by reference, “forward-looking information” within the meaning of applicable U.S. securities laws, rules and regulations. Forward-looking information may include, but is not limited to, statements with respect to the future performance of Atlas Lithium Corporation and its subsidiaries (together, “Atlas Lithium” or the “Company”), the Company’s mineral properties, the future price of lithium and other minerals, the mineralization of the Company’s properties, results of exploration activities and studies, the realization of mineral resource estimates, exploration activities, costs and timing of the development of new deposits, the results of future exploration and drilling, management’s skill and knowledge with respect to the exploration and development of mining properties in Brazil, the Company’s ability to raise adequate financing; government regulation of mining operations and exploration operations, timing and receipt of approvals and licenses under mineral legislation, and environmental risks. There may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward looking statements contained herein are made as of the date of this presentation. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The reader should not place undue reliance on these forward-looking statements, as there can be no assurances that the plans, initiatives or expectations upon which they are based will materialize. Information in this presentation relating to other companies are from public sources believed to be reliable but that have not been independently verified by the Company. Note that sampling results are not necessarily representative of the likelihood of mineralization of a project. Readers are cautioned that disclosure of any potential grades is conceptual in nature; there has been insufficient exploration by Atlas Lithium at its Minas Gerais Lithium Project to define a mineral resource or mineral reserve estimate. This presentation and any oral presentation accompanying it shall not constitute an offer to sell or a solicitation of an offer to buy any securities of the Company or as an inducement to make an offer or invitation with respect to any securities.

## Qualified Person’s Statement

Unless otherwise indicated, the scientific and technical information in this presentation has been reviewed and approved by James Abson, who is a Qualified Person for Lithium as such term is defined in Item 1300 of the U.S.’s Regulation S-K. James Abson is the Chief Geological Officer for Atlas Lithium.

# Summary Highlights of Minas Gerais Lithium Project

1

**Battery EV Adoption Continues to Grow at an Accelerated Pace, Supporting Lithium Concentrate Demand**

2

**Largest Hard-Rock Lithium Mineral Property Portfolio in Brazil, Located in a Premier Lithium Jurisdiction with High Quality Spodumene Deposits, Efficient Permitting Process and Favorable Infrastructure**

3

**Fast to Market – Open-Pit Minas Gerais Lithium Project to Produce and Sell Lithium Concentrate by Q4 2024**

4

**Promising Drilling Coupled with Strong Metallurgical Tests Demonstrate High Quality Lithium Concentrate Project Potential**

5

**Experienced Management Team with ~36% Ownership of the Company Demonstrate Full Alignment with the Project Success**

6

**Fully Funded to Production , with Tier 1 Customers Offtake Agreements Secured**

# Strategic Partnerships with Tier 1 Global Partners

Dec-23

## Strategic Investment and Pre-payment Offtake Agreement with Chengxin / Yahua

*BYD supplier*

**US\$10mm**  
In common shares acquired

**US\$40mm**  
Prepayment for the offtake of 80% of phase 1

**120k<sup>1</sup>**  
Phase 1 lithium concentrate offtake

*Tesla supplier*

Mar-24

## Strategic Investment and Offtake Agreement with Mitsui & Co.

*Global powerhouse; largest shareholder of Mitsui is Warren Buffett's Berkshire Hathaway*

**US\$30mm**  
In common shares acquired

**15k tons**  
Phase 1 lithium concentrate offtake

**60k tons / y<sup>2</sup>**  
Phase 2 lithium concentrate offtake

Large global partners validate Atlas Lithium's business model, assets, and team

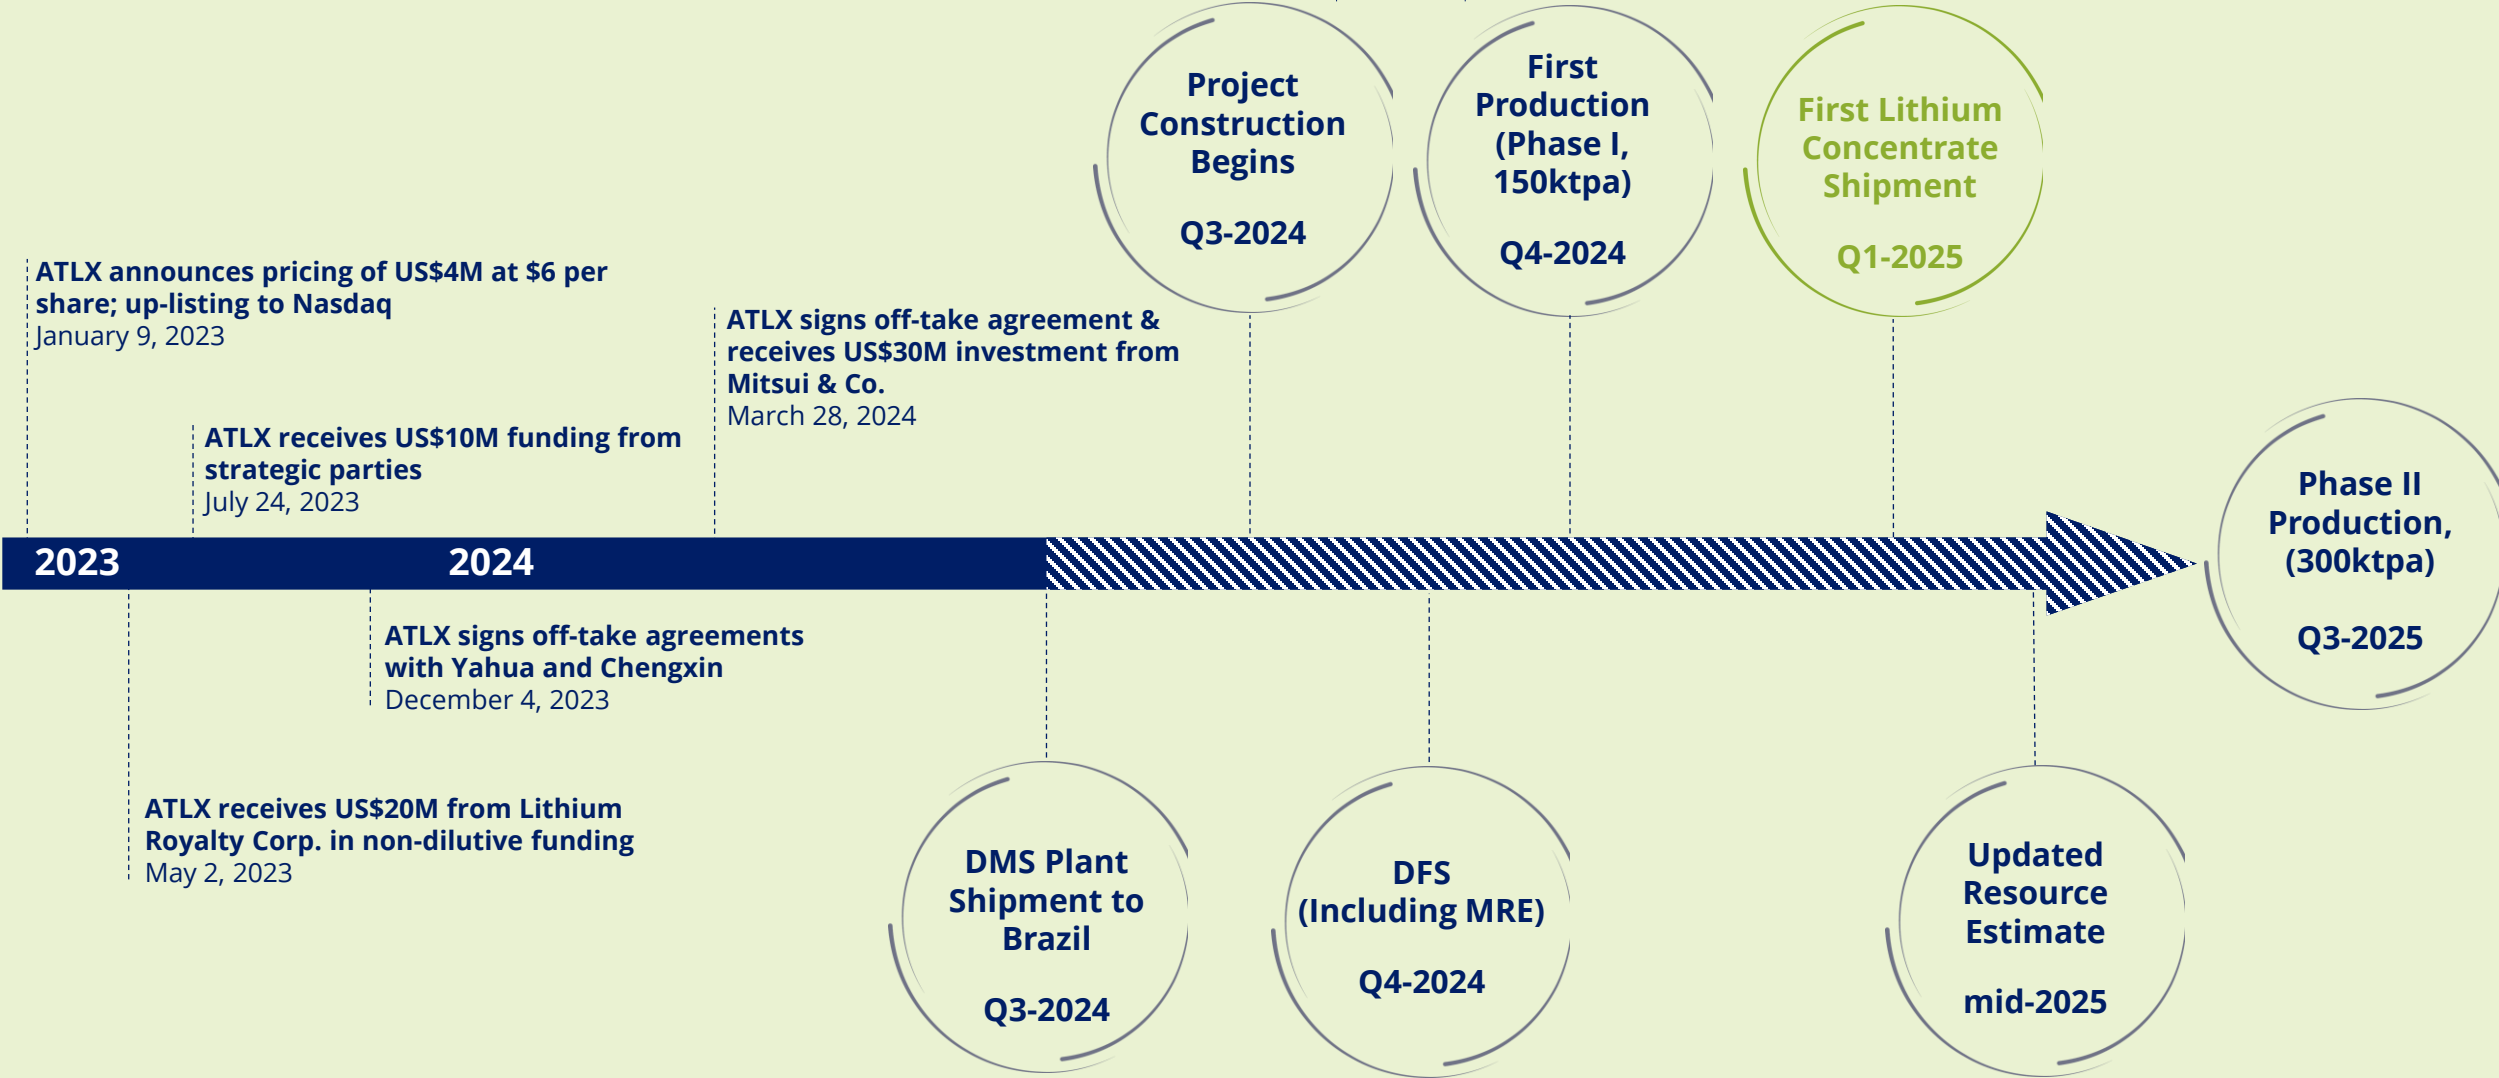

**US\$80mm in Total Investment:**

- US\$40mm in Atlas Lithium stock purchases
- US\$40mm in lithium product pre-payment

Source: Company's Filings  
Note: <sup>1</sup> Total amount of lithium divided equally between players (60k tons for each). <sup>2</sup> For a period of five years

# Clear Path to Near-Term Revenues

# Experienced Management Team

**Marc Fogassa**  
*Chairman & CEO*

- ✓ Fluent in Portuguese, the language of Brazil, where projects are located
- ✓ MIT, double-major undergraduate; Harvard MBA

**Tiago Miranda**  
*CFO & Treasurer*

- ✓ 18-yr experience in finance/accounting
- ✓ Previously Financial Controller of Ferrous Resources (\$550M M&A with VALE) and Equinox Gold Brazil; Finance Director of Horizonte Minerals (\$650M Project Finance)

**Brian Talbot**  
*COO & Director*

- ✓ Proven and experienced operator in metallurgical processing, mine operations and project development
- ✓ Held leadership roles at successful lithium pioneer producers for over a decade

**Nick Rowley**  
*VP, Business Development*

- ✓ 12+ years of experience in lithium industry
- ✓ Previously Director of Corporate Development, Galaxy Resources (now Allkem Ltd)

**James Abson**  
*Chief Geologist*

- ✓ Previously Chief Geologist and Exploration Manager for Bikita Minerals with over 29 years of experience in mining and mineral exploration

**Raimundo Almeida**  
*VP, Lithium Processing*

- ✓ 12 years of experience in lithium processing and production of lithium concentrate, incl. Sigma Lithium and AMG

# Seasoned Advisors and Board

## Board Directors

**Marc Fogassa**  
*Chairman & CEO*

**Brian Talbot**  
*COO & Director*

**Stephen Petersen, CFA**  
*Independent Director*

- ✓ 32-yr career at Fidelity serving as portfolio manager of multiple equity funds
- ✓ Managing director at Prior Wealth, \$3B in assets under management

**Roger Noriega**  
*Independent Director*

- ✓ Nominated by President George W. Bush Assistant Secretary of State
- ✓ Founder and managing director of Visión Américas

**Cassi Olson, Esq.**  
*Independent Director*

- ✓ Extensive experience in global contracts and venture transactions
- ✓ Attorney, Ellenoff Grossman & Schole LP

## Advisors

**Martin Rowley**  
*Lead Advisor*

- ✓ Pioneer of modern lithium industry with over 40yrs of experience as a founder, financier, and mining entrepreneur
- ✓ Founder of First Quantum Minerals and former chairman of Allkem

**Rodrigo Menck**  
*Advisor*

- ✓ Previously was CFO of Sigma Lithium and Nexa Resources
- ✓ Has more than 20 years of experience in the Financial Markets and Natural Resources

# Favorable Structural Fundamentals Supporting Lithium Demand

## Unquestionable Demand – 3.5 million tonnes LCE Needed by 2033

### EV Adoption Continues to Gather Pace

✓ Fastmarkets forecasts for demand from battery electric vehicles (BEVs) to increase by **compound annual growth rate (CAGR) 20%**

✓ By **2033, Europe and the US** will each contribute 5% to global supply versus **18% and 23% respectively of global combined electric vehicle (xEV) demand**

✓ **California, New York, New Jersey, and the EU** each moved to effectively ban new sales of fossil fuel cars by **2035**

✓ According to a new California Energy Commission (CEC) report released on August 2023, over **25% of all cars sold in the second quarter of 2023 were electric**, putting California on pace to have **100% all electric car sales by 2035**

✓ California has met its target 2025 EV sales **two years prior than expected**

✓ Woodmack forecasts **USA** will grow **643% its EV sales from 2022 to 2030**

✓ Will more than **double its participation** in global EV sales (9.0% to **18.5%**)

# Atlas Lithium Minas Gerais Lithium Project

Project with Clear Path to Production in the Near Term

Highly Supportive Jurisdiction with Proven Lithium Potential

Promising Drilling & Metallurgical Results

Strong ESG Credentials with Clear Environmental and Social Benefits

Additional Exploration Upside Supporting Phase II Expansion

Ongoing Drilling in Neves Area, a part of Minas Gerais Lithium Project

**468 km<sup>2</sup>**

Minas Gerais Lithium Project Area

**>80,000m**

Drilled in Neves Project

**5.23% Li<sub>2</sub>O**

Top Intersect Grade at 9 Meters Depth

**~150ktpa**

Spodumene Concentrate Targeted Production for Phase I

**Q4 2024**

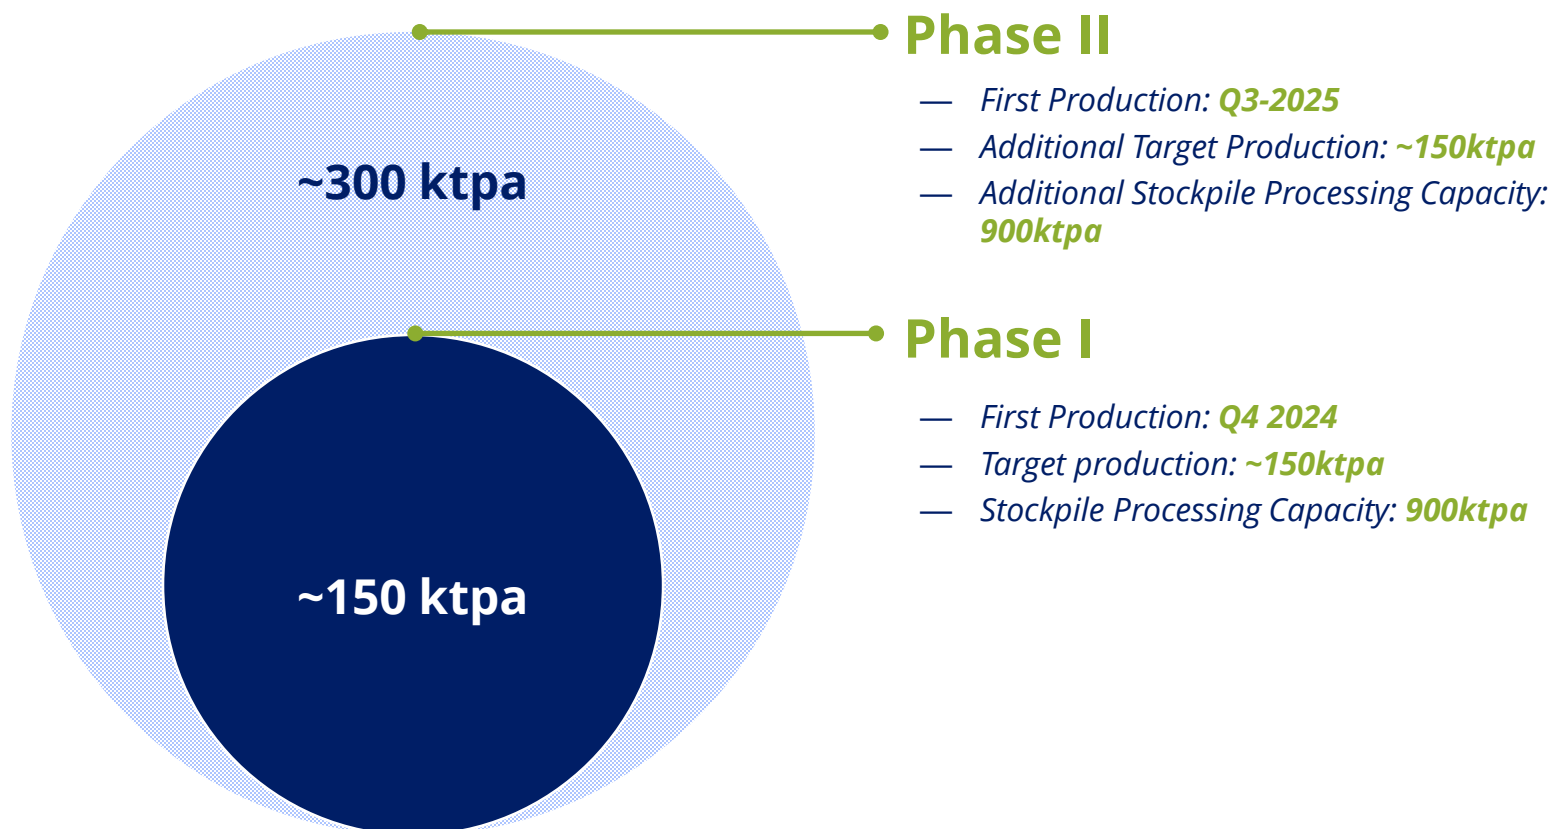

Expected Phase I First Production

**~300ktpa**

Spodumene Concentrate Targeted Production including Phase II

# Minas Gerais Lithium Project Production

## Phase I and Phase II Production

Potential to achieve a **spodumene concentrate production of 300,000 tpa** in the mid-term with development of Phase II

# Neighboring Minas Gerais Site

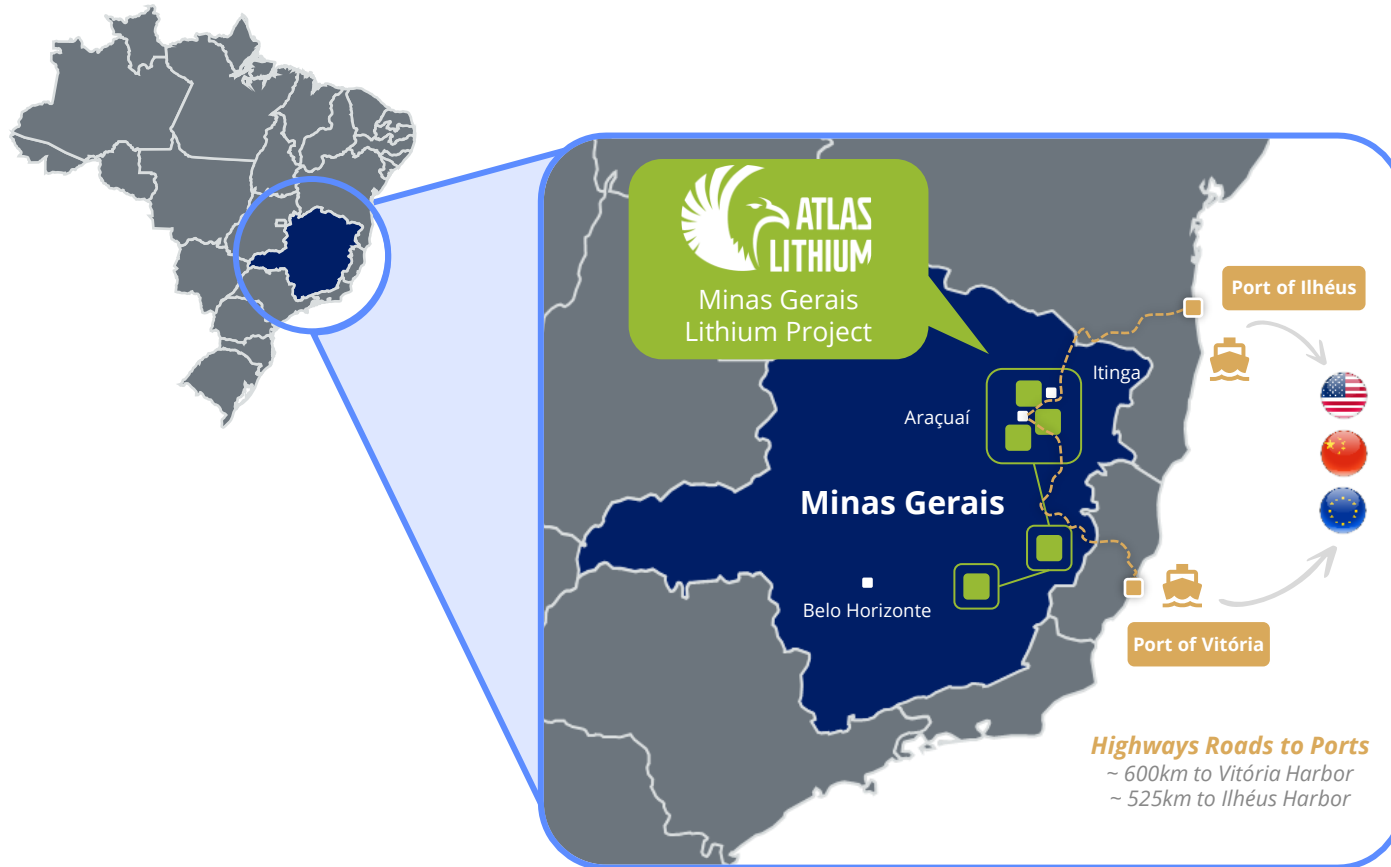

- ✓ Atlas Lithium holds **85** mineral rights spread over **468 km<sup>2</sup>**
- ✓ Several of these mineral rights are adjacent to Sigma Lithium Corporation, a lithium producer in Brazil's Lithium Valley

Source: Agência Nacional de Mineração, the Brazilian Mining Department

Note: The details of projects near or adjacent to the Company's projects are set out for information purposes only and not a guarantee or an indication of the productivity or the geology of the Company's projects.

# Highly Attractive Location

*Located in Brazil's Lithium Valley, a premier lithium jurisdiction with high quality spodumene deposits, efficient permitting process and favorable infrastructure*

- ✓ **Resource Potential to Support Large Scale Operations**
  - ✓ *The Brazilian Geological Service (CPRM) suggested that the region has at least 45 lithium deposits*
  - ✓ *Adjacent to operational lithium mines in the region such as Sigma Lithium and CBL*
- ✓ **Licensing Fast Track to Speed up Project Execution**
  - ✓ *Minas Gerais government created a fast-track process, under the InvestMinas Program, to facilitate project development and allow for licensing to be given within 6 months*
  - ✓ *Mining friendly jurisdiction: 300+ operating mines in the state of Minas Gerais*
- ✓ **Favorable Infrastructure**
  - ✓ *Access to abundant renewable & clean energy sources and highway roads directly connected to intercontinental ports to supply main markets*

# Highest ESG Standards with Clear Environmental and Social Benefits

## Green Process, Product Quality and Ongoing Initiatives Highlights Clear Carbon Footprint Benefits within the Project

Targeting Use of **Renewable Energy Source**

100% Dry Process with **No Tailings Dams**

Use of **Recycled Water**

Concentration Process with **No Hazardous Chemicals**

Supply the Battery Industry to **Support Energy Transition Globally**

**Planted over 6,000 Trees** of Diverse Types to Benefit Local Population

## Clear Benefits to the Local Community

- ✓ *Private and public partnership to support development of the region, among the poorest in the state of Minas Gerais*
- ✓ *Creation of jobs to benefit population of Vale do Jequitinhonha*
- ✓ *Infrastructure projects to benefit the Vale do Jequitinhonha **improving living conditions and reducing inequality***

# Promising Drilling and Metallurgical Results

## Drilling Update

- ✓ Within the Neves Project area, **84 pegmatite outcrops have been mapped and sampled** so far
- ✓ Promising lithium-bearing areas identified **near the surface, expanding mining prospects**
- ✓ >80,000 meters drilled with some targets yielding **intersects of up to 5.23% Li<sub>2</sub>O**
- ✓ Drill holes reveal **significant mineralized spodumene at shallow depths**, with potential for **open pit mining**

## Metallurgical Tests

- ✓ Metallurgical Testwork at SGS laboratory using **HLS** showed ability to concentrate our lithium samples to **7.22% Li<sub>2</sub>O grade**, while composite grade was **1.53% Li<sub>2</sub>O, mainly as spodumene**
  - HLS projections were confirmed in a short continuous DMS pilot plant campaign
- ✓ DMS plus magnetic separation on the 2nd pass DMS sinks produced a **final spodumene concentrate grading of 6.04% Li<sub>2</sub>O with only 0.53% Fe<sub>2</sub>O<sub>3</sub>**
- ✓ Lithium recovery rates ranged **between 70% and 85%**
- ✓ Results were achieved **without the use of flotation technique**

# Ongoing Drilling Campaign

# Exploration Upside at Neves Project

**Several promising targets already identified** in the Neves region, with potential to support the **development of Phase II and extend LOM**

**84 pegmatite outcrops** have been mapped and sampled

**The Project Area has now been covered by:**

- Detailed hyperspectral satellite and drone LiDAR mapping to aid in faster pegmatite discovery;
- Geological mapping and rock sampling, including K/Rb ratio analysis, to improve target prioritization;
- Closely spaced soil sampling grids, with over 4,500 samples taken to date, to highlight Li (>100ppm threshold) and LCT pegmatite pathfinder anomalies for drill testing;
- High-resolution drone geophysics surveys, including magnetics and radiometrics, to assist with mapping and drill targeting.
